

INTEGRATION GUIDE

BRIGHTSPACE

With Brightspace® integration, students at your institution can access the PlaceU™ system through Brightspace in order to take placement tests.

BEFORE YOU BEGIN

Your sales representative must provide you with a **Key**, **Secret**, and **URL** before you can set up the PlaceU integration.

ADD A LINK TO PLACEU

1. Sign in to Brightspace and navigate to your course.
2. Click **Course Admin**.
3. Click **External Learning Tools**.
4. Under **Manage External Learning Tool Links**, click **New Link**.
5. Enter the **New Link Properties**.
 - a. For **Title**, enter PlaceU.
 - b. Enter the **URL** you were given.
 - c. Select **Allow users to view this link**.
 - d. Select **Sign messages with key/secret with** and **Link key/secret**.
 - e. Enter the **key** you were given.
 - f. Enter the **secret** you were given.
 - g. Under **Security Settings**, select **Send user ID to tool provider**, **Send user name to tool provider**, and **Send user email to tool provider**.
6. Click **Save**.
7. Select an existing module or add a new module, and then click **Add Existing Activities > External Learning Tools** and click the tool you created.
8. Click > **Edit Properties In-Place** and select **Open as External Resource**.
9. Verify that the module and tool are both published.

PlaceU is now integrated in your Brightspace course.

SYSTEM REQUIREMENTS

PlaceU has been tested with the following browsers:

Mozilla® Firefox® (39+)
Windows®, macOS™/OS X®, Linux®
Google® Chrome™ (44+)
Windows, macOS/OS X
