

## INTEGRATION GUIDE

# CANVAS

With Canvas™ integration, students at your institution can access the PlaceU™ system through Canvas in order to take placement tests.

### BEFORE YOU BEGIN

Your sales representative must provide you with a **Key**, **Secret**, and **URL** before you can set up the PlaceU integration.

### ADD A LINK TO PLACEU

1. In Canvas, click **Settings**, then the **Apps** tab.
2. Click **View App Configurations**, then **Add App**.
3. Enter the required information.

Field	Value
App / Name	PlaceU
Consumer Key	The key you were given.
Shared Secret	The secret you were given.
Launch URL	The URL you were given.
Domain	<i>Leave empty.</i>
Privacy	<b>Public</b>

4. Click **Submit**.
5. Click **Modules** and find the module to which you want to add the link. If needed, click **+ Module** and add a new module named PlaceU.
6. Click  and specify the item details.
  - a. Select **External Tool** from the **Add** menu. After a few seconds, the course app you just created is listed.
  - b. Click your course app. The **URL** and **Page Name** fields are filled in.
  - c. Select **Load in a new tab**.
  - d. **OPTIONAL:** Set the tool display **Indentation**.
  - e. Click **Add Item**.
7. To make the link available to your students, click  for both the tool and the module you created.

PlaceU is now integrated in Canvas.

### SYSTEM REQUIREMENTS

PlaceU has been tested with the following browsers:

**Mozilla® Firefox® (39+)**  
Windows®, macOS™/OS X®, Linux®  
**Google® Chrome™ (44+)**  
Windows, macOS/OS X  
**Apple® Safari® (7+)**  
macOS/OS X

**IMPORTANT:** Internet Explorer® / Microsoft® Edge is currently *not* recommended for use with PlaceU.
