

INTEGRATION GUIDE

CANVAS

With Canvas™ integration, students at your institution can access the PlaceU™ system through Canvas in order to take placement tests.

BEFORE YOU BEGIN

Your sales representative must provide you with a **Key**, **Secret**, and **URL** before you can set up the PlaceU integration.

ADD A LINK TO PLACEU

1. In Canvas, click **Settings**, then the **Apps** tab.
2. Click **View App Configurations**, then **Add App**.
3. Enter the required information.

Field	Value
App / Name	PlaceU
Consumer Key	The key you were given.
Shared Secret	The secret you were given.
Launch URL	The URL you were given.
Domain	<i>Leave empty.</i>
Privacy	Public

4. Click **Submit**.
5. Click **Modules** and find the module to which you want to add the link.
If needed, click **+ Module** and add a new module named PlaceU.
6. Click  and specify the item details.
 - a. Select **External Tool** from the **Add** menu.
After a few seconds, the course app you just created is listed.
 - b. Click your course app.
The **URL** and **Page Name** fields are filled in.
 - c. Select **Load in a new tab**.
 - d. **OPTIONAL:** Set the tool display **Indentation**.
 - e. Click **Add Item**.
7. To make the link available to your students, click  for both the tool and the module you created.

PlaceU is now integrated in Canvas.

SYSTEM REQUIREMENTS

PlaceU has been tested with the following browsers:

Mozilla® Firefox® (39+)
Windows®, macOS™/OS X®, Linux®

Google® Chrome™ (44+)
Windows, macOS/OS X

Apple® Safari® (7+)
macOS/OS X

IMPORTANT: Internet Explorer® / Microsoft® Edge is currently *not* recommended for use with PlaceU.
