

INTEGRATION GUIDE

SAKAI

With Sakai® integration, students at your institution can access the PlaceU™ system through Sakai in order to take placement tests.

BEFORE YOU BEGIN

Your sales representative must provide you with a **Key**, **Secret**, and **URL** before you can set up the PlaceU integration.

ADD A LINK TO PLACEU

1. In Sakai, navigate to your course site and click **Site Info**.
2. Click **External Tools**, then **Install LTI 1.1 Tool**.
3. Enter the required information to create the PlaceU LTI tool.

Items not enumerated in this table can be left with their default values or changed as needed.

Field	Value
Tool Title	PlaceU
Button Text	PlaceU
Tool Status	Enabled
Launch URL	The URL you were given.
Launch Key	The key you were given.
Launch Secret	The secret you were given.
Privacy Settings	Select both Send User Names to External Tool and Send Email Addresses to External Tool .
Launch in Popup	Allow popup to be changed

4. Click **Save**.
5. Click **Site Info** to refresh the page.
6. Click **Manage Tools**.
7. Select the PlaceU LTI tool and click **Continue**.
Depending on your installation, the tool might be listed under **Plugin Tools** or **LTI Plugin Tools**.
8. Under Customize Tool Instances, select **Launch in Popup**.
9. Click **Continue**, then **Finish**.

PlaceU is now integrated in your Sakai course site.

SYSTEM REQUIREMENTS

PlaceU has been tested with the following browsers:

Mozilla® Firefox® (39+)
Windows®, macOS™/OS X®, Linux®
Google® Chrome™ (44+)
Windows, macOS/OS X
