

If available, you and your students can access WebAssign assignments from Canvas<sup>TM</sup>.

## ADVANCED INTEGRATION FOR CANVAS

Advanced integration provides additional features, including score syncing to Canvas.

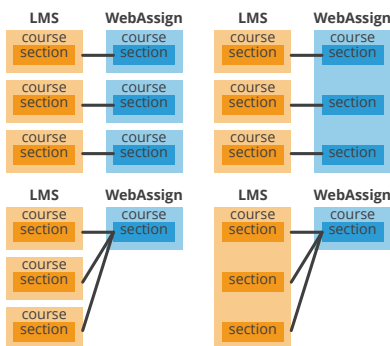

### REQUESTING ADVANCED INTEGRATION

If Advanced Integration is not shown under LMS Integration on the Class Settings page, contact your Learning Consultant. If needed, you can find your Learning Consultant at [cengage.com/repfinder](http://cengage.com/repfinder).

**NOTE** Always follow your institution's IT guidelines for requesting new external tools.

## SUPPORTED COURSE/SECTION MODELS

While multiple Canvas sections can be associated with the same WebAssign section, *each Canvas course must be associated with only one WebAssign section.*

## SET UP CANVAS INTEGRATION

### BEFORE YOU BEGIN

Set up integration at the start of the term, and only for WebAssign course sections with no enrolled students.

**IMPORTANT** Turn off self-enrollment for your WebAssign course. Do not link a Canvas course to an existing WebAssign course if:

- students are already enrolled
- you gave students a class key to self-enroll

1. In WebAssign, go to the ClassView page for the course section you want to set up.
2. Click **Edit Class Settings**.
3. Click the **LMS Integration** tab. The integrations available to you are listed.
4. Click the integration you want to set up, and then follow the displayed instructions. These instructions are specific to your WebAssign class section.

## ACCESS WEBASSIGN FROM CANVAS

If enabled, you can open WebAssign from your Canvas class.

### NOTE

- You can't open Canvas from WebAssign.
- Don't sign in to WebAssign when viewing your Canvas course as a student using Student View. If needed, create a separate student account to use for testing purposes.

1. Sign in to Canvas and navigate to your class.
2. Click the WebAssign tool.
3. **FIRST TIME ONLY:** Link your WebAssign and Canvas accounts.

## ADD OR UPDATE ASSIGNMENTS IN CANVAS

After initially importing your WebAssign assignments to Canvas, you can update Canvas with assignments you added or changed in WebAssign by importing an updated package of WebAssign assignments.

Reimport your WebAssign assignments if you have:

- added assignments
- removed assignments
- changed assignment points

You might also want to reimport your assignments if you have changed assignment dates or names, but these changes will not affect scoring.

You do not need to reimport your assignments after granting extensions.

1. Schedule or update your assignments in WebAssign.
2. Download a package with your assignments and upload it to Canvas as described in [Add WebAssign Assignments to Canvas](#).

New assignments in the WebAssign section are imported to Canvas. Existing assignment names, descriptions, point values and dates in Canvas are updated to reflect changes to the linked assignments in WebAssign.

## UNSCHEDULE ASSIGNMENTS FROM CANVAS

To remove WebAssign assignments from Canvas, unschedule the assignments manually from both WebAssign and Canvas.

## TRANSFER A STUDENT

Student drops and transfers in Canvas are not synced to WebAssign. Transfer students between

## INTEGRATIONS ASSISTANCE

To request help with integrations, contact your Learning Consultant. If needed, you can find your Learning Consultant at [cengage.com/repfinder](http://cengage.com/repfinder).

## TROUBLESHOOTING

### CANVAS LINK NOT SHOWN

In order for the link to be displayed, WebAssign must first enable Canvas integration for your school.

To request the Canvas integration be set up, contact your Learning Consultant. If needed, you can find your Learning Consultant at [cengage.com/repfinder](http://cengage.com/repfinder).

Include the following information:

- your school
- the learning management system (Canvas) you want to enable
- your WebAssign username

**NOTE** Always follow your institution's IT guidelines for requesting new external tools.

After the integration has been configured, the link will be displayed.

sections in WebAssign before transferring them in Canvas.

If you transfer a student first in Canvas, you might not be able to transfer their work in WebAssign.
