

LTI INTEGRATION

BRIGHTSPACE INTEGRATION

If available, you and your students can access WebAssign assignments from Brightspace®. Brightspace is also known as D2L or Desire2Learn.

SUPPORTED COURSE/SECTION MODELS

While multiple Brightspace sections can be associated with the same WebAssign section, *each Brightspace course must be associated with only one WebAssign section.*

SET UP BRIGHTSPACE INTEGRATION

BEFORE YOU BEGIN

For all LMS integrations:

- Set up integration at the start of the term, and only for WebAssign course sections with no enrolled students.
- Turn off self-enrollment for your WebAssign course.

1. In WebAssign, go to the ClassView page for the course section you want to set up.
2. Click **Edit Class Settings**.
3. Click the **LMS Integration** tab. The integrations available to you are listed.
4. Click the integration you want to set up, and then follow the displayed instructions. These instructions are specific to your WebAssign class section.

ADD A WEBASSIGN LOGIN TOOL (BASIC INTEGRATION DETAILS)

1. In Brightspace, navigate to the Content page for your class.
2. Either select an existing module or add a new module, and then click **Add Existing Activities > External Learning Tools**.
3. Click **Manage External Tools**, then **New Link**.

4. Enter the required information.

NOTE: See class-specific instructions on the Class Settings page.

5. Click **Save**.
6. Navigate back to the Content page for your class and select the module where you want to put the link.
7. Click **Add Existing Activities > External Learning Tools**, and then click the tool you just created.
8. Beside the WebAssign tool, click > **Edit Properties In-place** and select **Open as External Resource**.

WebAssign is now integrated into your Brightspace course and the link to WebAssign is displayed to your students within Brightspace.

ACCESS WEBASSIGN FROM BRIGHTSPACE

If enabled, you can sign in to WebAssign directly from your Brightspace class. Brightspace is also known as D2L or Desire2Learn.

NOTE:

- You can't sign in to Brightspace from WebAssign.
- Don't sign in to WebAssign when viewing your Brightspace course as a student using Role Switch, Impersonation, or Preview.

If needed, create a separate student account to use for testing purposes.

1. Sign in to Brightspace and navigate to your class.
2. Click the WebAssign tool or a WebAssign assignment.
3. **FIRST TIME ONLY:** Link your WebAssign and Brightspace accounts.
 - a. Sign in to WebAssign.
 - b. Click **Link Account**.

After your accounts are linked, you are signed in to WebAssign automatically.

INTEGRATIONS ASSISTANCE

Contact your WebAssign representative at **800.955.8275** or **open a support case at support.cengage.com**.

TROUBLESHOOTING

BRIGHTSPACE LINK NOT SHOWN

In order for the link to be displayed, WebAssign must first enable Brightspace integration for your school.

To request the Brightspace integration be set up, **open a support case at support.cengage.com**.

Include the following information:

- your school
- the learning management system (Brightspace) you want to enable
- your WebAssign username

NOTE: Always follow your institution's IT guidelines for requesting new external tools.

After the integration has been configured, the link will be displayed.

TRANSFER A STUDENT

Student drops and transfers in Brightspace are not synced to WebAssign. Transfer students between sections in WebAssign before transferring them in Brightspace.

If you transfer a student first in Brightspace, you might not be able to transfer their work in WebAssign.
