

If available, you and your students can access WebAssign assignments from Moodle™.

SUPPORTED COURSE/SECTION MODELS

While multiple Moodle sections can be associated with the same WebAssign section, *each Moodle course must be associated with only one WebAssign section.*

SET UP MOODLE INTEGRATION

BEFORE YOU BEGIN

Set up integration at the start of the term, and only for WebAssign course sections with no enrolled students.

IMPORTANT Turn off self-enrollment for your WebAssign course. Do not link a Moodle course to an existing WebAssign course if:

- students are already enrolled
- you gave students a class key to self-enroll

1. In WebAssign, go to the ClassView page for the course section you want to set up.
2. Click **Edit Class Settings**.
3. Click the **LMS Integration** tab. The integrations available to you are listed.
4. Click the integration you want to set up, and then follow the displayed instructions. These instructions are specific to your WebAssign class section.

ADD A WEBASSIGN LOGIN TOOL (BASIC INTEGRATION DETAILS)

NOTE Advanced LMS integration is not available for Moodle.

1. Navigate to your Moodle course home page and click **Turn editing on**.
2. In the section you want to link to WebAssign, click **Add an activity or resource**.
3. Select **External Tool** and click **Add**.
4. Click **Show more**.
5. Enter the required information.

NOTE See class-specific instructions on the Class Settings page.

6. **OPTIONAL:** Expand **Privacy** and select **Share launcher's name with the tool** and **Share launcher's email with the tool**.

Providing this information helps you easily identify your students in WebAssign because their names are ensured to be the same as on your roster.

7. Click **Save and return to course**.

WebAssign is now integrated into your Moodle course and the link to WebAssign is displayed to your students within Moodle.

ACCESS WEBASSIGN FROM MOODLE

If enabled, you can open WebAssign from your Moodle class.

NOTE

- You can't open Moodle from WebAssign.
- Don't sign in to WebAssign when viewing your Moodle course as a student using Switch role. If needed, create a separate student account to use for testing purposes.

1. Sign in to Moodle and navigate to your class.
2. Click the WebAssign tool.
3. **FIRST TIME ONLY:** Link your WebAssign and Moodle accounts.

TRANSFER A STUDENT

Student drops and transfers in Moodle are not synced to WebAssign. Transfer students between sections in WebAssign before transferring them in Moodle.

If you transfer a student first in Moodle, you might not be able to transfer their work in WebAssign.

INTEGRATIONS ASSISTANCE

To request help with integrations, contact your Learning Consultant. If needed, you can find your Learning Consultant at cengage.com/repfinder.

TROUBLESHOOTING

MOODLE LINK NOT SHOWN

In order for the link to be displayed, WebAssign must first enable Moodle integration for your school.

To request the Moodle integration be set up, contact your Learning Consultant. If needed, you can find your Learning Consultant at cengage.com/repfinder.

Include the following information:

- your school
- the learning management system (Moodle) you want to enable
- your WebAssign username

NOTE Always follow your institution's IT guidelines for requesting new external tools.

After the integration has been configured, the link will be displayed.
