

If available, you and your students can access WebAssign assignments from Sakai®.

SUPPORTED COURSE/SECTION MODELS

While multiple Sakai sections can be associated with the same WebAssign section, *each Sakai course must be associated with only one WebAssign section.*

SET UP SAKAI INTEGRATION

BEFORE YOU BEGIN

Set up integration at the start of the term, and only for WebAssign course sections with no enrolled students.

IMPORTANT Turn off self-enrollment for your WebAssign course.

1. In WebAssign, go to the ClassView page for the course section you want to set up.
2. Click **Edit Class Settings**.
3. Click the **LMS Integration** tab. The integrations available to you are listed.
4. Click the integration you want to set up, and then follow the displayed instructions. These instructions are specific to your WebAssign class section.

SAKAI ADMINISTRATOR: CREATE THE WEBASSIGN TOOL

When first setting up Sakai integration for your institution, you must create the WebAssign LTI tool. Instructors can then [configure the WebAssign LTI tool](#) for each section.

1. In Sakai, navigate to the Tool Menu in the Administration Workspace.
2. Click **External Tools**, then **Install LTI 1.1 Tool**.
3. Enter the required information to create the WebAssign LTI tool.

NOTE See class-specific instructions on the Class Settings page.

4. Click **Save**.

INSTRUCTOR: CONFIGURE THE WEBASSIGN TOOL FOR YOUR SECTION

After your Sakai administrator [creates the WebAssign LTI tool](#), you can configure it for each class section you want to link to.

1. In Sakai, navigate to your course site and click **Site Info**.
2. Click **Manage Tools**.
3. Select the WebAssign LTI tool and click **Continue**. Depending on your installation, the tool might be listed under **Plugin Tools** or **LTI Plugin Tools**.
4. Under Customize Tool Instances, select **Launch in Popup**.
5. In **Custom Parameters**, set the course and section ID for your WebAssign class section.

NOTE See class-specific instructions on the Class Settings page.

6. Click **Continue**, then **Finish**.

WebAssign is now integrated into your Sakai course and the link to WebAssign is displayed to your students within Sakai.

ACCESS WEBASSIGN FROM SAKAI

If enabled, you can open WebAssign from your Sakai class.

NOTE

- You can't open Sakai from WebAssign.
- Don't sign in to WebAssign when viewing your Sakai course as a student using View Site As Student, Student View, or Preview. If needed, create a separate student account to use for testing purposes.

1. Sign in to Sakai and navigate to your class.
2. Click the WebAssign tool.
3. **FIRST TIME ONLY:** Link your WebAssign and Sakai accounts.

TRANSFER A STUDENT

Student drops and transfers in Sakai are not synced to WebAssign. Transfer students between sections in WebAssign before transferring them in Sakai.

If you transfer a student first in Sakai, you might not be able to transfer their work in WebAssign.

INTEGRATIONS ASSISTANCE

To request help with integrations, contact your Learning Consultant. If needed, you can find your Learning Consultant at cengage.com/repfinder/.

TROUBLESHOOTING

SAKAI LINK NOT SHOWN

In order for the link to be displayed, WebAssign must first enable Sakai integration for your school.

To request the Sakai integration be set up, contact your Learning Consultant. If needed, you can find your Learning Consultant at cengage.com/repfinder/. Include the following information:

- your school
- the learning management system (Sakai) you want to enable
- your WebAssign username

NOTE Always follow your institution's IT guidelines for requesting new external tools.

After the integration has been configured, the link will be displayed.
